WHO WE ARE

Southern California Rheumatology Society (SCRS) was founded in 1949 by Dr. Carlos Sacasa, who served as the first President. A glowing line up of rheumatologists have led the organization since then, including Drs. Carl Pearson, George Friou, Edmund Dubois, James Klinenberg, Harold Paulus, Francisco Quismorio Jr., Swamy Venuturupalli, Robin Dore, Daniel Furst, Karen Marzan, Samy Metyas, Rhina Castillo, Anne Quismorio, and Karina Torralba.

It initially operated with the support of the Arthritis Foundation but eventually evolved to be an independent 501c3 non-profit organization.

OUR MISSION

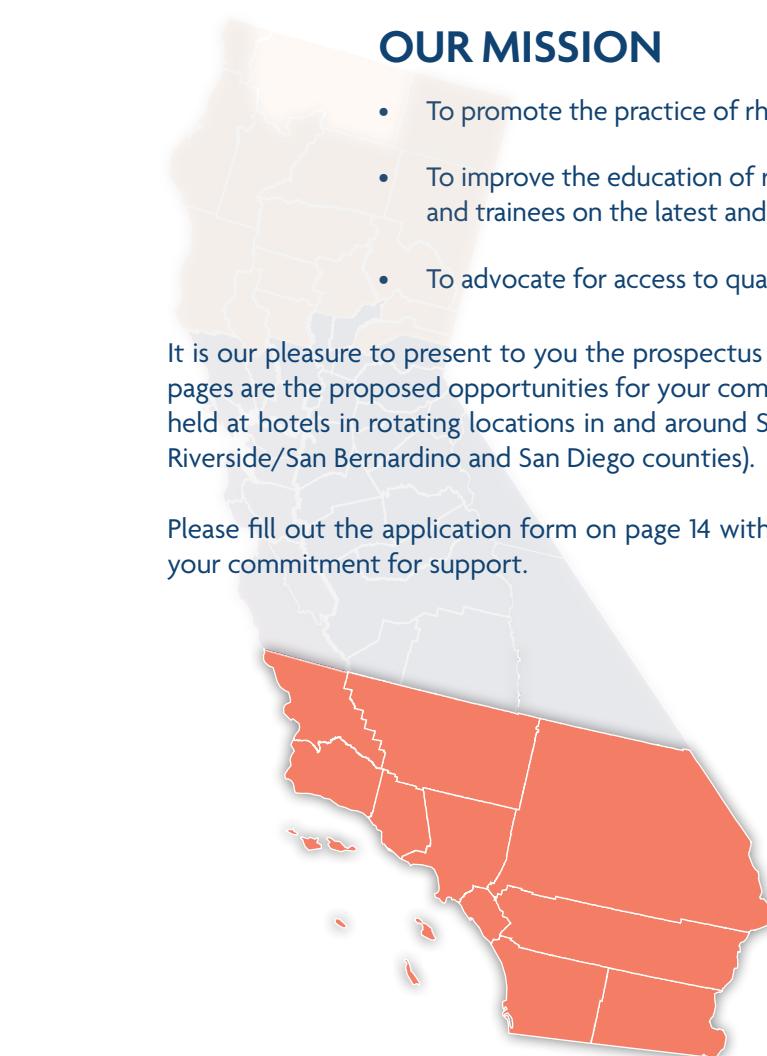

- To promote the practice of rheumatology in Southern California.
- To improve the education of rheumatology physicians, Advanced Practice Providers (APPs), and trainees on the latest and most relevant advances in rheumatic disease management.
- To advocate for access to quality patient care.

It is our pleasure to present to you the prospectus for the SCRS for Fiscal Year 2026. Enclosed in the following pages are the proposed opportunities for your company and the working agendas for each event. These will be held at hotels in rotating locations in and around Southern California (including Los Angeles, Orange, Ventura, Riverside/San Bernardino and San Diego counties).

Please fill out the application form on page 14 with your indicated choices. A name and signature will confirm your commitment for support.

South California by Numbers

- 56,505 sq mi
- Population of 23,762,904
- 700 Rheumatologists
- 11 Rheumatology fellowships

MEMBERS

SCRS holds a membership of at least 700 rheumatologists from Southern California. We have also engaged with academic programs within Southern California to provide training in rheumatologic ultrasound, venues for fellows to enjoy camaraderie across programs, and forums for discussion related to career advancement. For each of our programs, we expect at least 90 participants – including fellows and academic faculty of at least eleven rheumatology divisions in Southern California (UCLA, USC, UCI, Loma Linda University, UCSD, Scripps, Cedars Sinai, Olive View-UCLA, CHLA, UCSD - Peds), clinical practice providers as part of large health systems such as Kaiser Permanente, and private practice providers (physicians and APPs). We have a very energetic panel of board and program committee members. The current board is comprised of:

Board President: Howard Yang, MD, RhMSUS, UCLA, Santa Monica

SCRS Program Committee: Christina Downey, MD, RhMSUS, Loma Linda University, Loma Linda | Kristal Choi, MD, RhMSUS, UCLA, Santa Monica | Sandy Lee, MD, Arthritis & Osteoporosis Medical Center - Monterey Park and La Palma

Member Engagement Subcommittee:

Chair of Member Communication – Amy Kehl, MD, RhMSUS, Cedars-Sinai, Los Angeles.

Chair of Digital Media and Outreach – Alexander Peck, DO, Pacific Arthritis, Santa Monica.

Scientific Subcommittee:

Chair of Research and Innovation - Courtney O'Brien, DO, RhMSUS, UCLA Simi Valley.

Chair of Education and Clinical Programs: Karla Criner, MD, RhMSUS, UCLA Torrance.

Advocacy Subcommittee:

Chair of Advocacy and Policy - Kiana Taba, MD, Newport Beach.

Finance Subcommittee:

Chair of the Finance and Fundraising Subcommittee – Jonathan Dau, MD, RhMSUS, Hoag Hospital, Newport Beach

Fellows Advisory Subcommittee:

Chair of Fellow Engagement - Eric Liu, MD, RhMSUS, UCLA Pasadena/Burbank

Chair of Fellow Development and Mentorship - Patil Injean, DO, Kaiser Sunset.

We are managed by the Suwanee River Area Health Education Center (SRAHEC), led by Sarah Catalanotto as its Executive Director and Laura Moore as its Manager. SRAHEC also manages the Ultrasound School of North American Rheumatologists (USSONAR).

ACTIVITIES

Over the past several years, we have held meetings every 1-3 months with agenda that include content related to scientific advances, updates on advocacy and practice support, and issues related to professional development, and personal wellness. During COVID, we adapted by launching the Teach the Teacher Professional Development Series which featured 10 talks by rheumatologists versed in education, leadership and faculty development.

In 2022, SCRS started a yearly MSK-Rheum ultrasound course for all rheumatology fellows in Southern California. For 2024, we held highly attended symposiums about lupus and Sjogren's and presented lifetime achievement awards to Dr. Bevra H. Hahn and Dr. Orrin M. Troum.

In preparation for 2026, we present to you an opportunity to engage with SCRS and its programs. We will be holding at least 4 quarterly meetings in the next year.

FELLOWS' TRAINING PROGRAM

SCRS strives to engage rheumatology fellows in Southern California and support their education. One of our primary efforts is our annual two-day musculoskeletal ultrasound course. This has helped augment the number of rheumatologists trained in musculoskeletal ultrasound given the limited capacity of available training programs. The inaugural program was in 2022 and has grown significantly in capacity and scope annually given high demand and enthusiasm by both rheumatology fellows and program directors. Our disease specific symposiums (such as Lupus, Sjogren's, Myositis, Scleroderma) were also well-attended by fellows and residents and were an excellent opportunity to learn the newest developments in these fields from true experts.

At SCRS, we also believe that the education of future rheumatologists extends beyond the teaching of medical science. We have also held career fairs and invited local rheumatologists to discuss different practice settings: academic, private practice, and industry. Topics have further included contract review as well as the changing landscape of Southern California for rheumatology practices.
